

TELETASK

Certificate of origin and warranty

A TELETASK Domotic system has a warranty period of 2 years from the date of supply.

The factory warranty period covers manufacturing faults and material defects. Repair during the warranty period covers both component and labour costs to repair the part to its original state. Other evolved costs like (de-)mounting and transport to/from the TELETASK service center Gent/Belgium are not covered. Batteries and relay contacts are also not covered.

Damage caused by mistreatment, fire, water, smoke, transport, incorrect installation, overvoltage, overload is not covered by the warranty. Touch screens need specific cleaning treatment (see technical manual supplied with the unit).

Except otherwise indicated, all TELETASK branded products are guaranteed made in Belgium.
